

Good morning! Many of you have heard that Outdoor Worship is now an option. In this issue, I seek your prayerful discernment about worship. I skip a ROCK across Worship History. I hope we see that humanity has experienced worship through various delivery systems. I sense we are repeating history!

I recognize that Worship at Home is rather long! It is written in a way to reflect TUMC's Order of Worship during Services.

The focus of everything herein is driven two views of the Church.

When the Church becomes a building, worship is a Service that must take place in that building.

When Church becomes a gathering of two or more people, worship is an Experience of believing Jesus and receiving His authority and power!

While I am tempted to choose one or the other, the Holy Spirit leads me not into temptation. I am convinced that our building must be cleansed and restored to be a house of prayer and discipleship focused of belief that teach us to trust Jesus power and authority. Thus prepared and equipped, we go to Worship. Summoned by Christ we go two by two along the dusty roads, into the bars, restaurants, and sports arenas to Worship His Holy Name with Beliefs empowered by His Authority.

One in Christ,

Robert
